## DETAILED ACTION

### *Election/Restrictions*

1. Applicant's election without traverse of claims 1-7 and 18-20 in Paper No. 8 is acknowledged.

2. Claims 8-17 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 8.

### *Claim Rejections - 35 USC § 102*

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1, 6, 7, 18 and 19 are rejected under 35 U.S.C. 102(e) as being anticipated by Miyazaki et al (US 2002/0025881).

Miyazaki et al disclose a transmission comprising: a thrust ratio between the thrust of the driving pulley and the thrust of the following pulley is determined (paragraph 19), the state of change of the thrust ratio is determined while the pulley thrust is varied according to a predetermined cycle by measuring a hydraulic pressure (paragraph 53), the state of change of the thrust ratio is determined while a driving torque is varied according to a predetermined cycle (paragraph 54) and thrust of at least

one of the driving pulley and the following pulley is controlled based on a state of change of the thrust ratio (paragraph 21).

***Allowable Subject Matter***

5. Claims 2-5 and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

6. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.
